C·A·N·A·D·A

February 15, 2005

Glenda Gies
Executive Director
Waste Diversion Ontario
45 Sheppard Avenue East, Suite 920
North York, Ontario
M2N 5W9
(sent via fax & e-mail)

Dear Ms. Gies:

This letter is a notice of intent to submit the required information on 15 April 2005, as defined by Waste Diversion Ontario, for the purpose of creating an industry funding organization and subsequent stewardship plan for waste electrical and electronics equipment. This notice covers all products in the three designated categories of Information Technology, Telecom, and Audio-Visual equipment.

The organizations that are signatories to this letter represent stewards in all four priority product categories as identified by the Minister. A number of meetings have been held with appliance associations to explore opportunities to work together. These discussions are ongoing.

The following organizations have accepted to work together to submit the required information recognizing that our diverse industry may require a number of different stewardship solutions.

- Canadian Imaging Trade Association
- Canadian Wireless Telecommunications Association
- Electronics Product Stewardship Canada
- Electro-Federation Canada
- Information Technology Association of Canada
- Retail Council of Canada

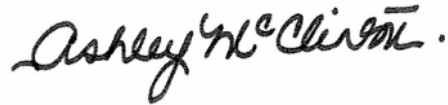

As advised we have yet to define our representation from municipal, ENGO, consumer and recycler sectors and this will be provided to you as soon as possible. You indicated this was not an immediate requirement for this notice of intent.

Please note that should you require a single point of contact, please contact Mr. David Betts of EPS Canada. We look forward to working with Waste Diversion Ontario and the ministry in the coming months.

Yours truly,

David A. G. Betts
President and CEO
